SUMMARY

I've got six years of professional experience in .NET Web development

EDUCATION

10.2010 University name: **Gdańsk University of Technology**
- Faculty: Electrical and Control Engineering
01.2017 Field: Electrical Engineering
Degree: **Master of Science, engineer**

COMPETENCES

- Cloud: **Azure**
- DevOps toolchain: **Kubernetes**, Terraform
- Backend technologies: **C#**, **ASP.NET**, MSSQL, MySQL
- .NET toolchain: **AutoMapper**, Hibernate, NUnit, XUnit, Moq, Fluent Assertions, Dapper
- OOP principles: **SOLID**, **CQRS**, DRY, KISS
- Design patterns: **MVC**, Observer, Decorator, Singleton, Adapter, State, Strategy, Method and Abstract Factory
- Web platforms: Vue, **Angular**
- Web toolchain: HTML, CSS, JavaScript, RxJS
- Other toolchain: JSON, XML, XSD, SOAP, RESTfull API, Bootstrap
- Distributed version-control systems: **GIT**, TFS

SKILLS AND OTHER COMPETENCE

Languages

- English - intermediate

Personality traits

- Accuracy
- Hard-worker
- Ability to work in group
- Communication skills

Development environments

- Visual Studio IDE
- **Visual Studio Code**

EXPERIENCE

- 02.2022** **Senior Angular/.NET Developer** Angular | .NET | MSSQL | RabbitMQ | Redis
- EY Global Services (Poland) Sp. z o.o., Wrocław
until now I'm responsible for the following:
- Developing solutions using a variety of technologies and tools to for cloud-based systems
 - Applying object-oriented and functional programming styles to real-world software engineering problems
 - Adopt Agile software delivery techniques and technologies including Continuous Integration and Continuous Delivery (CI/CD)
 - Performing code reviews and guiding other team members to deliver best results to our Clients
- 10.2020** **Regular Angular/.NET Developer** Angular | .NET | MSSQL
- LuxMed Sp. z o.o., Warszawa
01.2022 I was responsible for the following:
- Develop new products and add new functionality to existing software systems
 - Write clean, scalable code using C# programming language according to the companies development specifications
 - Close cooperation with software architects and business analysts
- 12.2019** **Regular Full Stack .NET Developer** Blazor | .NET | MSSQL
- Alior Bank S.A., Gdańsk
09.2020 I was responsible for the following:
- Develop new products and add new functionality to existing software systems
 - Proactively research latest technologies and advice on usability to the development team
 - Revise, update, refactor and debug code
- 01.2019** **Junior Vue/.NET Developer** Vue | .NET | MSSQL
- Sprint S.A., Gdańsk
11.2019 I was responsible for the following:
- Software development based on provided requirements (C#)
 - Software development according to corresponding standards
 - Close cooperation with software architects and business analysts
- 09.2018** **Junior Angular/.NET Developer** Angular | .NET | MSSQL
- Infoprojekt Sp. z o.o., Gdańsk
12.2018 I was responsible for the following:
- Continuously design, develop, and test web solutions (C#)
 - Providing high quality standards of programming
 - Operate effectively within an agile development model

10.2017	Quality Assurance	.NET
-	<u>ITMAGINATION Sp. z o.o., Płock</u>	
09.2018	I was responsible for the following:	
	<ul style="list-style-type: none"> • Creating and executing test cases based on requirements • Co-operation with development team to provide the best solutions • Analyzing and monitoring whole testing process to ensure functionality and propose amendments if necessary • Implementing automated tests (C#, Selenium Web Driver) 	
07.2016	Junior Engineer for testing and analysis	.NET
-	<u>Sii Sp. z o.o., Gdańsk</u>	
09.2017	I was responsible for the following:	
	<ul style="list-style-type: none"> • Analysis of project documentation • Designing test specification based on system specification • Implementing, code reviewing and refactoring automated tests (C#) • Executing automated and manual tests of embedded systems • Working on test process improvement and test automation • Using laboratory measurement equipment and other tools specific for automotive industry for problem analysis and debugging 	
03.2015	Intern Linux Software Engineer	Λ
-	<u>Intel Technology Poland Sp. z o.o., Gdańsk</u>	
10.2015	I was responsible for the following:	
	<ul style="list-style-type: none"> • Designing, developing, enhancing and validating various class features for Linux kernel modules (C/C++) • Actively participating in all stages of software development life-cycle • Documenting software specifications and requirements • Defining functional and non-functional requirements for software/hardware 	
10.2014	Designer	
-	<u>Enamor System Sp. z o.o., Gdańsk</u>	
02.2015	I was responsible for the following:	
	<ul style="list-style-type: none"> • Designing and modelling of electronic components that are used in fire protection system extracting Autodesk Inc. products • Analysis of the safety objects • Involvement in the implementation of platform security management ZEW.SMS • Maintenance of the safety systems 	

INTERESTS

DevOps, networking, playing guitar, communication skills
