**Phone number:** +48 690 317 314

**Email:** konrad.dabrowski@devoak.pl

**Linkedin:** konrad-dabrowski-26a039b1

## SUMMARY

Senior .NET/Angular Developer with 6+ years of experience building scalable web apps in cloud-native environments (Azure, Kubernetes). Skilled in microservices, modular monoliths, CI/CD, clean architecture, and Agile delivery. Proven record of shipping enterprise-grade solutions for finance, healthcare, and global clients.

## EDUCATION

**10.2010** University name: **Gdańsk University of Technology**  
- Faculty: Electrical and Control Engineering  
**01.2017** Field: Electrical Engineering  
Degree: **Master of Science, engineer**

## COMPETENCES

- Cloud: **Azure**
- DevOps toolchain: **Kubernetes**, Terraform
- Backend technologies: **C#**, **ASP.NET**, MSSQL, MySQL
- .NET toolchain: **AutoMapper**, Hibernate, NUnit, XUnit, Moq, Fluent Assertions, Dapper
- OOP principles: **SOLID**, **CQRS**, DRY, KISS
- Design patterns: **MVC**, Observer, Decorator, Singleton, Adapter, State, Strategy, Method and Abstract Factory
- Web platforms: Vue, **Angular**
- Web toolchain: HTML, CSS, JavaScript, RxJS
- Other toolchain: JSON, XML, XSD, SOAP, RESTfull API, Bootstrap
- Distributed version-control systems: **GIT**, TFS

## SKILLS AND OTHER COMPETENCE

### Languages

- English - intermediate

### Personality traits

- Accuracy
- Hard-worker
- Ability to work in group
- Communication skills

### Development environments

- Visual Studio IDE
- **Visual Studio Code**

## EXPERIENCE

- 02.2022**      **Senior Angular/.NET Developer**      Angular | .NET | MSSQL | RabbitMQ | Redis  
-      EY Global Services (Poland) Sp. z o.o., Wrocław  
**until now**      I'm responsible for the following:
- Developing solutions using a variety of technologies and tools to for cloud-based systems
  - Applying object-oriented and functional programming styles to real-world software engineering problems
  - Adopt Agile software delivery techniques and technologies including Continuous Integration and Continuous Delivery (CI/CD)
  - Performing code reviews and guiding other team members to deliver best results to our Clients
- 10.2020**      **Regular Angular/.NET Developer**      Angular | .NET | MSSQL  
-      LuxMed Sp. z o.o., Warszawa  
**01.2022**      I was responsible for the following:
- Develop new products and add new functionality to existing software systems
  - Write clean, scalable code using C# programming language according to the companies development specifications
  - Close cooperation with software architects and business analysts
- 12.2019**      **Regular Full Stack .NET Developer**      Blazor | .NET | MSSQL  
-      Alior Bank S.A., Gdańsk  
**09.2020**      I was responsible for the following:
- Develop new products and add new functionality to existing software systems
  - Proactively research latest technologies and advice on usability to the development team
  - Revise, update, refactor and debug code
- 01.2019**      **Junior Vue/.NET Developer**      Vue | .NET | MSSQL  
-      Sprint S.A., Gdańsk  
**11.2019**      I was responsible for the following:
- Software development based on provided requirements (C#)
  - Software development according to corresponding standards
  - Close cooperation with software architects and business analysts
- 09.2018**      **Junior Angular/.NET Developer**      Angular | .NET | MSSQL  
-      Infoprojekt Sp. z o.o., Gdańsk  
**12.2018**      I was responsible for the following:
- Continuously design, develop, and test web solutions (C#)
  - Providing high quality standards of programming
  - Operate effectively within an agile development model

- 10.2017**      **Quality Assurance**      .NET  
 -      ITMAGINATION Sp. z o.o., Płock
- 09.2018**      I was responsible for the following:
- Creating and executing test cases based on requirements
  - Co-operation with development team to provide the best solutions
  - Analyzing and monitoring whole testing process to ensure functionality and propose amendments if necessary
  - **Implementing** automated tests (C#, Selenium Web Driver)
- 07.2016**      **Junior Engineer for testing and analysis**      .NET  
 -      Sii Sp. z o.o., Gdańsk
- 09.2017**      I was responsible for the following:
- Analysis of project documentation
  - Designing test specification based on system specification
  - Implementing, code reviewing and refactoring automated tests (C#)
  - Executing automated and manual tests of embedded systems
  - Working on test process improvement and test automation
  - Using laboratory measurement equipment and other tools specific for automotive industry for problem analysis and debugging
- 03.2015**      **Intern Linux Software Engineer**        
 -      Intel Technology Poland Sp. z o.o., Gdańsk
- 10.2015**      I was responsible for the following:
- Designing, developing, enhancing and validating various class features for Linux kernel modules (C/C++)
  - Actively participating in all stages of software development life-cycle
  - Documenting software specifications and requirements
  - Defining functional and non-functional requirements for software/hardware
- 10.2014**      **Designer**  
 -      Enamor System Sp. z o.o., Gdańsk
- 02.2015**      I was responsible for the following:
- Designing and modelling of electronic components that are used in fire protection system extracting Autodesk Inc. products
  - Analysis of the safety objects
  - Involvement in the implementation of platform security management ZEW.SMS
  - Maintenance of the safety systems

## INTERESTS

DevOps, networking, playing guitar, communication skills
