SUMMARY

Senior .NET/Angular Developer with 6+ years of experience building scalable web apps in cloud-native environments (Azure, Kubernetes). Skilled in microservices, modular monoliths, CI/CD, clean architecture, and Agile delivery. Proven record of shipping enterprise-grade solutions for finance, healthcare, and global clients.

EDUCATION

10.2010 University name: **Gdańsk University of Technology**
- Faculty: Electrical and Control Engineering
01.2017 Field: Electrical Engineering
Degree: **Master of Science, engineer**

COMPETENCES

- Cloud: **Azure**
- DevOps toolchain: **Kubernetes**, Terraform
- Backend technologies: **C#**, **ASP.NET**, MSSQL, MySQL
- .NET toolchain: **AutoMapper**, Hibernate, NUnit, XUnit, Moq, Fluent Assertions, Dapper
- OOP principles: **SOLID**, **CQRS**, DRY, KISS
- Design patterns: **MVC**, Observer, Decorator, Singleton, Adapter, State, Strategy, Method and Abstract Factory
- Web platforms: Vue, **Angular**
- Web toolchain: HTML, CSS, JavaScript, RxJS
- Other toolchain: JSON, XML, XSD, SOAP, RESTfull API, Bootstrap
- Distributed version-control systems: **GIT**, TFS

AI ENGINEER ROADMAP

- Python
- Data Structures & Algorithms
- Machine Learning Basics
- Neural Networks
- Natural Language Processing
- Distributed Systems
- Caching Mechanisms
- Vector Databases
- Prompt Engineering

- LLM Fine-tuning

SKILLS AND OTHER COMPETENCE

Languages

- English - intermediate

Personality traits

- Accuracy
- Hard-worker
- Ability to work in group
- Communication skills

Development environments

- Visual Studio IDE
- **Visual Studio Code**

EXPERIENCE

- 02.2022
-
until now

Senior Angular/.NET Developer
EY Global Services (Poland) Sp. z o.o., Wrocław

Angular | .NET | MSSQL | RabbitMQ | Redis

I'm responsible for the following:
 - Developing solutions using a variety of technologies and tools to for cloud-based systems
 - Applying object-oriented and functional programming styles to real-world software engineering problems
 - Adopt Agile software delivery techniques and technologies including Continuous Integration and Continuous Delivery (CI/CD)
 - Performing code reviews and guiding other team members to deliver best results to our Clients
- 10.2020
-
01.2022

Regular Angular/.NET Developer
LuxMed Sp. z o.o., Warszawa

Angular | .NET | MSSQL

I was responsible for the following:
 - Develop new products and add new functionality to existing software systems
 - Write clean, scalable code using C# programming language according to the companies development specifications
 - Close cooperation with software architects and business analysts
- 12.2019
-
09.2020

Regular Full Stack .NET Developer
Alior Bank S.A., Gdańsk

Blazor | .NET | MSSQL

I was responsible for the following:
 - Develop new products and add new functionality to existing software systems
 - Proactively research latest technologies and advice on usability to the development team
 - Revise, update, refactor and debug code
- 01.2019
-
11.2019

Junior Vue/.NET Developer
Sprint S.A., Gdańsk

Vue | .NET | MSSQL

I was responsible for the following:
 - Software development based on provided requirements (C#)
 - Software development according to corresponding standards
 - Close cooperation with software architects and business analysts
- 09.2018
-
12.2018

Junior Angular/.NET Developer
Infoprojekt Sp. z o.o., Gdańsk

Angular | .NET | MSSQL

I was responsible for the following:
 - Continuously design, develop, and test web solutions (C#)
 - Providing high quality standards of programming
 - Operate effectively within an agile development model

- 10.2017** **Quality Assurance** .NET
- ITMAGINATION Sp. z o.o., Płock
- 09.2018** I was responsible for the following:
- Creating and executing test cases based on requirements
 - Co-operation with development team to provide the best solutions
 - Analyzing and monitoring whole testing process to ensure functionality and propose amendments if necessary
 - **Implementing** automated tests (C#, Selenium Web Driver)
- 07.2016** **Junior Engineer for testing and analysis** .NET
- Sii Sp. z o.o., Gdańsk
- 09.2017** I was responsible for the following:
- Analysis of project documentation
 - Designing test specification based on system specification
 - Implementing, code reviewing and refactoring automated tests (C#)
 - Executing automated and manual tests of embedded systems
 - Working on test process improvement and test automation
 - Using laboratory measurement equipment and other tools specific for automotive industry for problem analysis and debugging
- 03.2015** **Intern Linux Software Engineer** 
- Intel Technology Poland Sp. z o.o., Gdańsk
- 10.2015** I was responsible for the following:
- Designing, developing, enhancing and validating various class features for Linux kernel modules (C/C++)
 - Actively participating in all stages of software development life-cycle
 - Documenting software specifications and requirements
 - Defining functional and non-functional requirements for software/hardware
- 10.2014** **Designer**
- Enamor System Sp. z o.o., Gdańsk
- 02.2015** I was responsible for the following:
- Designing and modelling of electronic components that are used in fire protection system extracting Autodesk Inc. products
 - Analysis of the safety objects
 - Involvement in the implementation of platform security management ZEW.SMS
 - Maintenance of the safety systems
