Summary

Senior .NET/Angular Developer with 6+ years of experience building scalable web apps in cloud-native environments (Azure, Kubernetes). Skilled in microservices, modular monoliths, CI/CD, clean architecture, and Agile delivery. Proven record of shipping enterprise-grade solutions for finance, healthcare, and global clients.
Education

10.2010 - 01.2017
University name: **Gdańsk University of Technology**
Faculty: Electrical and Control Engineering
Field: Electrical Engineering
Degree: **Master of Science, engineer**

Competences

- Clouds: **Azure**
- DevOps toolchain: **Kubernetes**, Terraform
- Backend technologies: **C#**, **ASP.NET**, MSSQL, MySQL
- .NET toolchain: **AutoMapper**, Hibernate, NUnit, XUnit, Moq, Fluent Assertions, Dapper
- OOP principles: **SOLID**, **CQRS**, DRY, KISS
- Design patterns: **MVC**, Observer, Decorator, Singleton, Adapter, State, Strategy, Method and Abstract Factory
- Web platforms: Vue, **Angular**
- Web toolchain: HTML, CSS, JavaScript, RxJS
- Other toolchain: JSON, XML, XSD, SOAP, RESTfull API, Bootstrap
- Distributed version-control systems: **GIT**, TFS

AI Engineer Roadmap

- Python
- Data Structures & Algorithms
- Machine Learning Basics
- Neural Networks
- Natural Language Processing
- Distributed Systems
- Caching Mechanisms
- Vector Databases
- Prompt Engineering

Skills and other competence

Languages

- English - intermediate

Personality traits

- Accuracy
- Hard-worker
- Ability to work in group
- Communication skills

Development environments

- Visual Studio IDE
- **Visual Studio Code**

EXPERIENCE

02.2022
-
until now

Senior Angular/.NET Developer Angular | .NET | MSSQL | RabbitMQ | Redis

EY Global Services (Poland) Sp. z o.o., Wrocław

I'm responsible for the following:

- Developing solutions using a variety of technologies and tools to for cloud-based systems
- Applying object-oriented and functional programming styles to real-world software engineering problems
- Adopt Agile software delivery techniques and technologies including Continuous Integration and Continuous Delivery (CI/CD)
- Performing code reviews and guiding other team members to deliver best results to our Clients

10.2020
-
01.2022

Regular Angular/.NET Developer Angular | .NET | MSSQL

LuxMed Sp. z o.o., Warszawa

I was responsible for the following:

- Develop new products and add new functionality to existing software systems
- Write clean, scalable code using **C#** programming language according to the companies development specifications
- Close cooperation with software architects and business analysts

12.2019
-
09.2020

Regular Full Stack .NET Developer Blazor | .NET | MSSQL

Alior Bank S.A., Gdańsk

I was responsible for the following:

- Develop new products and add new functionality to existing software systems
- Proactively research latest technologies and advice on usability to the development team
- Revise, update, refactor and debug code

01.2019
-
11.2019

Junior Vue/.NET Developer Vue | .NET | MSSQL

Sprint S.A., Gdańsk

I was responsible for the following:

- Software development based on provided requirements (**C#**)
- Software development according to corresponding standards
- Close cooperation with software architects and business analysts

09.2018
-
12.2018

Junior Angular/.NET Developer Angular | .NET | MSSQL

Infoprojekt Sp. z o.o., Gdańsk

I was responsible for the following:

- Continuously design, develop, and test web solutions (**C#**)
- Providing high quality standards of programming
- Operate effectively within an agile development model

10.2017	**Quality Assurance**	.NET

-
09.2018 ITMAGINATION Sp. z o.o., Płock

I was responsible for the following:

- Creating and executing test cases based on requirements
- Co-operation with development team to provide the best solutions
- Analyzing and monitoring whole testing process to ensure functionality and propose amendments if necessary
- **Implementing** automated tests (**C#**, Selenium Web Driver)

07.2016	**Junior Engineer for testing and analysis**	.NET

-
09.2017 Sii Sp. z o.o., Gdańsk

I was responsible for the following:

- Analysis of project documentation
- Designing test specification based on system specification
- Implementing, code reviewing and refactoring automated tests (**C#**)
- Executing automated and manual tests of embedded systems
- Working on test process improvement and test automation
- Using laboratory measurement equipment and other tools specific for automotive industry for problem analysis and debugging

03.2015	**Intern Linux Software Engineer**	

-
10.2015 Intel Technology Poland Sp. z o.o., Gdańsk

I was responsible for the following:

- Designing, developing, enhancing and validating various class features for Linux kernel modules (**C/C++**)
- Actively participating in all stages of software development life-cycle
- Documenting software specifications and requirements
- Defining functional and non-functional requirements for software/hardware

10.2014	**Designer**	

-
02.2015 Enamor System Sp. z o.o., Gdańsk

I was responsible for the following:

- Designing and modelling of electronic components that are used in fire protection system extracting Autodesk Inc. products
- Analysis of the safety objects
- Involvement in the implementation of platform security management ZEW.SMS
- Maintenance of the safety systems
